1. AREA OF OPERATIONS

a. Location. The 9th Marines TAOR is situated on the east coast of South Vietnam in QUANG NAM and THUA THIEN Provinces. During March the northern boundary was expanded to include responsibility for 17 additional square miles. The northern boundary of the TAOR is delineated by the THUA THIEN/QUANG NAM provincial boundary from grid line AT 81 on the west to grid line AT 87 on the east. The boundary then follows grid line AT 87 north to the DAM LAP AN where it turns east again and follows the shoreline of the DAM LAP AN and the SOUTH CHINA SEA. The eastern boundary is formed in the north by the shoreline of the bay of DANANG as far south as the SONG CU DE. The eastern border then zig-zags across grid line AT 94 to the intersection of route 5 and the SONG TUY LOAN. The east border then follows the SONG TUY LOAN to a point 500 meters west of the railroad tracks; there it turns south and parallels the railroad tracks to grid line AT 66 at which point it crosses the tracks and again turns south on the east side of the tracks. The southern boundary of the TAOR is the SONG THU BON/SONG VU GIA Rivers, and the west boundary generally follows grid line ZC 20.

b. Description of the Area.

(1) The TAOR encompasses an area of approximately 257 square miles. There are 27 villages, and approximately 150 hamlets concentrated primarily in a narrow band around the east and south edge of the TAOR. The topography is generally hilly to mountainous in the north and west, with flat rice paddy land in the southeastern part and bordering the major rivers in the area.

(2) The geographical features with important tactical value are:

(a) Hill 55 . . . . . AT 970620
(b) Hill 65 . . . . . AT 878577
(c) Hill 41 . . . . . AT 934663
(d) Hill 37 . . . . . AT 915581
(e) Ferry Site . . . . . AT 925531
(f) Hai Van Pass . . . . . AT 937915
(g) High ground at ESSO Plant . . . . AT 937873
(h) All LOC's and bridges . . . . . ---------

(3) The TAOR includes a population of approximately 88,000 people concentrated along the main roads and rivers. Statistical data reflecting the ethnic and religious make-up of the population is limited, but available sources indicate that Vietnamese make up 90% of the population with the other 10% made up of Chinese,

DECLASSIFIED

DECLASSIFIED

Cambodians and others. Roughly 80% of the population is Buddist, 10% Catholic and 10% followers of the CAO DAI Sect.

(4) About 90% of the population are subsistence farmers with rice as the primary crop. The remaining 10% are engaged in family type industry or are employed by the Government of Vietnam.

(5) The primary land routes in the TAOR are the railroad bed converted into a road which runs from route 1A (AT 999700) to hill 55 and south; route 5 which runs from DANANG to DAI LOC through the 2/4 Sector; and highway 1 which runs through the northeastern portion of the TAOR.

c. Weather.

(1) The weather in the 9th Marines TAOR remained moderate and dry throughout the month. Early morning fog was present on eight days. There was a total of .16 inches of rainfall during the month which is considerably below the March mean average. Visibility in the mornings was normally poor ranging from as low as 2 miles on 8 mornings, to 8 miles on 1 morning. This visibility was caused by a low ceiling of stratus clouds which generally blew inland by late morning.

(2) Weather Statistics for March

Total Precipitation	.16 inches
Number of days with measurable rainfall	3 days
Maximum temperature	88°
Minimum temperature	65°
Average humidity	80%
Average visibility	7 miles
Average winds and direction	7 knots out of the NW
Number of days with less than 5 miles visibility	1 day

2. VIET CONG ORDER OF BATTLE (See Figure 1)

a. The March OOB remained relatively unchanged concerning the disposition of identified Viet Cong units, with one notable exception. The 3d Battalion of the 3d NVA Regiment moved into the INDEPENDENCE area adjacent to 9th Marines TAOR. The mission is probably to assist in collection of rice and to assist the LF and MF units on harassing missions into the DANANG TAOR.

b. The total main force and local force strength within the 9th Marines TAOR is essimated to be 1100. In addition to this total there are approximately 100 guerrillas in each of the 27 villages in the 9th Marines TAOR.

3. VIET CONG TACTICS/ACTIVITIES

a. During March the VC used their traditional tactics of ambush, hit and run, mining, sniping and harassing. No change in tactics was noted. One attack was notable not because of a shift in tactics but because 140mm rockets were used.

b. Intelligence reports, sightings, and contacts indicate an increased or a high sustained level of VC activity in the following areas:

(1) SONG CU DE Valley. From an almost non-existent level of activity during February and the first part of March, Agent Reports of activity in this area have picked up immensely. The VC objective is probably harassment and interdiction of Highway 1, NAM O Bridge, the ESSO Plant and HAI VAN Pass.

(2) The INDEPENDENCE Area and the extreme southwest corner of 9th Marines TAOR. Many contacts along the SONG VU GIA and many agent reports of battalions in the INDEPENDENCE Area have produced the highest level of activity in the TAOR. The probable cause of activity is the VC desire to gather the rich rice crop from the INDEPENDENCE Area.

(3) The area adjacent to HUNG QUANG I (Revolutionary Development Project). The VC have announced a policy of disrupting the RD Program. There has been much activity adjacent to the area and many agent reports that disruption of the RD Program is a prime objective of the VC. To date the VC have not been able to accomplish this objective.

4. SIGNIFICANT EVENTS.

a. At 041930H March, 1967, Company H, Second Battalion, 4th Marines, outpost at (AT 833567) received 6 rounds of 60mm mortar fire from (AT 825569). Company H returned 44 rounds of 105mm. They were unable to observe the effect on the target area.

b. At 042305H March, 1967, an estimated platoon of VC attacked a PF squad via (AT 905576). 2 Platoons of PF's were dispatched to engage the VC. 2d Battalion, 4th Marines, fired 25 rounds of 81mm illumination and 20 rounds of 105mm illumination is support. The VC broke contact and were last seen moving towards (AT 895606).

c. At 112025H March, 1967, Company H, 2d Battalion, 4th Marines, perimeter defense at (AT 952629) received 3 rounds of 60mm mortar fire from (AT 955634). DECLASSIFIED

action was thought to be a probe.

d. At 150201H March 1967, the VC fired approximately 10 rounds of 140mm caliber rockets from (AT 960678). The firing was reported immediately by four different OP's and artillery fire was brought to bear within four minutes. At 150912H, Company G, 2d Battalion, 4th Marines, reached the firing site and recovered 33 rocket launchers, 11 rocket rounds with fuses, three extra fuses, and eight canisters. A total of 24 rocket firing sites were uncovered. These rocket sites did not appear to be as carefully prepared as were the sites for the attack of 27 February. The site gave the appearance of a friendly artillery mission having hit the area.

e. At 211940H March 1967, a platoon of PF's at (AT 909555) engaged an estimated platoon of VC trying to cross the river. Company B, 1st Battalion, 26th Marines fired 12 rounds of 81mm mortar in support of the PF element. 11 VC KIA (PROB) were estimated by PF's. These KIA (PROB) were not verified by 9th Marines and were not added into the monthly total of casualties.

f. At 212240H March 1967, Company H, 2d Battalion, 4th Marines reported that the VC had fired 3 rounds of 60mm mortar into the vicinity of HIEU DUC District Headquarters at (AT 934688). No casualties were reported.

g. At 300830H March 1967, Company H, 2d Battalion, 4th Marines, platoon sweep at (AT 805546) received mortar, rifle grenade, and small arms fire from three VC platoons dug in in an ambush position. Company H returned small arms and M-79 fire and 26 rounds of 105mm. USMC casualties were 8 KIA and 6 WIA. VC casualties were 12 VC KIA (CONF) and 4 VC KIA (PROB). A KC Scout identified the enemy dead as part of the Q-14 LF Company.

h. At 312210H March 1967, Company G, 2d Battalion, 4th Marines, squad ambush at (AT 921674) fired small arms and M-79 fire on VC that were moving into the ambush site from all sides. 81mm mortars, artillery, and air illumination were provided. Two tanks and a squad were sent to the scene for reinforcement. A search of the area produced 4 VC KIA (CONF) and 1-81mm mortar with bipod and sights, 2 chicom grenades, 2 ponchos, 1 pack, 2 pair of sandals, 1 cartridge belt, 1 felt hat, 1 camouflaged helmet, maps of CAM NE and NVA CAM training centers and 1 map of an unknown area. The VC unit was identified as the V-4 Company of the 402 Sapper Battalion.

S-5 CHRONOLOGY

1. General

a. During March, the activities in Civil Affairs and Psychological Warfare held their steady tempo and maintained the objectives of developing national pride in the Vietnamese populace and assisting in the overall Regimental mission.

b. Continuous liaison has been effected with Dien Ban, Hieu Duc, Dai Loc and Hoa Vang Districts. A Marine Liaison Officer has been attached to the 51st ARVN Regiment which is operating in the Southwest portion of the Hoa Vang District in the Regiment's TAOR. Marine Company Commanders are making more contacts than ever before with the Village and Hamlet Chiefs near their units' positions. This effort on the part of the Company Commanders is doing much to improve Marine/Vietnamese relations.

c. Friendly civilians continue to provide intelligence information throughout the TAOR.

d. A total of eleven Kit Carson Scouts are presently employed with 9th Marine units. They are considered valuable assets by the Company Commanders and have, on more than one occasion, exhibited their effectiveness.

2. Civil Affairs

a. The resettlement hamlet of Ai Dong now contains ten (10) homes with three (3) more under construction. Because of the increasing cost of lumber, III MAF will not approve more requests for 4X4 and 2X4 pieces. Lumber for future homes will be obtained from dunnage stocks or the people will use bamboo.

b. The 19th patient was admitted to the 1st Med Battalion Hospital for cosmetic surgery. This is a high impact project that definitely impresses the people of our good intentions.

c. On 5 March, a young boy from Cam Van Hamlet turned into 1st Battalion 26th Marines an M-14 rifle which he had found near his home.

d. Negotiations were completed with the elders of Xuan Diem and Cam Van on the removal of pagodas that were obstructing fields of fire. The people commenced work and have completed the removal of the structures.

e. Visits were made to the Revolutionary Development Cadres working in Dai Loc and Hieu Duc Districts. The Cadre were found to be well organized, motivated and doing a good job. The people in the hamlet appeared to like and respect the Cadre members.

f. The Bich Bac school project continues. The original foundation cracked because of a poor mixture. It has been removed and a new form is now being poured. The people are very enthusiastic about this project and show up daily to offer their assistance.

g. English classes are being conducted at 1st Battalion 26th Marines' MEDCAP and at the Ai Dong Resettlement Hamlet. English classes are being encouraged by all units.

h. The Regimental S-5 made two staff visits to each Battalion S-5 during this period. All CAOs have been to the Sub-Sector Advisors School in Saigon and have attended the III MAF Psychological Warfare Orientation Course. Their programs are becoming more coordinated as they gain experience in their jobs.

i. The 1st Battalion, 26th Marines initiated an Agricultural Education Program that was attended by 250 people near Hill #55. A USA agricultural expert, with an interpreter, instructed the people and planted a sample garden that will be cared for by the local children.

j. 1st Battalion, 26th Marines is conducting a training course for three (3) local girls. They are being trained to assist Marines at MEDCAP, so that they may eventually be certified by the GVN as Hamlet Health Workers.

k. A female merchant on Hill #55 was wounded by an explosive device that was set up in her tent. She was evacuated to the USOM Hospital in Da Nang. The Marines are taking up a collection to assist her with her expenses.

l. The shower unit that is being installed in Bich Bac is 90% complete. The pump will be connected next week.

m. The blueprints for the permanent MEDCAP facility on Hill #55, have been approved and III MAF has allocated $1200 for its construction through the CARE Fund.

n. The Marines and Popular Force Personnel of CAP B3-4 assisted the people in moving and constructing school furniture.

o. The Regimental S-5 traveled to Hoi An and discussed with Lt Commander BURCHETT the procedures to be followed to certify local girls as Hamlet Health Workers. A discussion on the same subject was held with the Dien Ban Medical Chief. The Chief was most pessimistic and offered little assistance.

p. On 17 March, a child returned an M-26 grenade to the Marines of 1st Battalion, 26th Marines.

q. Over 200 people turned out to help clear the brush from the Trung An Resettlement area. This is the location of a new CAP unit, and the Hamlet is expected to house over 200 families. It is located adjacent to Liberty Road and should provide some needed additional security for the route.

r. Plans are being made that will result in the GVN transporting fertilizer to the Hill #55 area to be sold to the local farmers. Over 50 have signed their names indicating their desire to make a purchase prior to the planting season.

s. 2nd Battalion, 4th Marines repaired a rice threshing machine that was captured from the VC. The Battalion Commanding Officer presented the machine to the Dai Loc District Chief.

aa. On 3 April, 1967, Hoa Thanh Village will elect a new Village Chief (Mr. Toung is only serving as a temporary chief). Hoa Thanh Village has been designated as a New Life Village and the complete village governmental structure is being revamped. A new 59 man Revolutionary Development Cadre team also complements the area and is doing much to assist the village.

DECLASSIFIED

Hoa Thanh Village has unlimited potential, excellent security, excellent farmlands, and cooperative people. Eventually, it should become one of the finest villages around. A new hospital and maternity clinic is planned there in the near future. A new market place has already been constructed in the village.

bb. The Tuy Loan (AT945699) Public Health and Sanitation Project is now well into its 4th month of construction. All toilets are completed and being used; a shower is completed and all plumbing working; the well is finished; all well casing put in; and completely covered over with pump attached; the water tower is finished and painted, barrels hooked up and screened over; all plumbing hooked up; washing "patios" with drain put in along with drains for the outside faucet of the shower unit. All Popular Force Personnel and children of the area are making extensive use of shower facilities and "heads". This portion of the project has been an outstanding success. Many loads of fill have been brought into the area to level it off and beautify the complete project site. However, a problem still exists with the methane generator. It leaks excessively (2 inches to 3 inches of water every 24 hours). Sea-Bees have rebuilt the generator twice now and still havn't been able to stop this leakage. One last attempt to fix the generator will be made. If it is unsuccessful, a new generator will be constructed; this time precasting all sides and bottom out of solid concrete. 1500 lbs of water under pressure cannot be contained by a cement block generator. The pressure is just too great at the joints, and the sides leak like sieves. All plumbing to provide heat and light to the hospital through the methane generator is installed and the project will not be abandoned. Two thirds of the project is a success and in time, the final third will be equally successful. Platoon personnel assisted by CAP B3-1 and several workers from Tuy Loan will continue to work on the project.

cc. CAP B3-3, with the Marines and Popular Force Personnel working in a joint Civil Affairs effort, have constructed over 600 cement bricks to be used in constructing a new medical dispensary at Duyen Son (AT945660). At this date, the foundation has been dug and blocks are being laid. Two masonry kits were given to the CAP to assist in the actual building of the structure.

dd. The 29th Civil Affairs Company (USA) delivered 1,250 Civil Affairs building blocks to the construction site of the school at An My (3) along with tin, cement, and sand. Marines from CAP B2-1, two men from the Army Civil Affairs Platoon, and four hamlet workers are working to complete the project. Actual brick construction is finished. A concrete veneer is now being placed over bricks with windows and doors being put in place.

ee. 3,750 Civil Affairs building blocks were delivered to the Civil Affairs Officer of 2nd Battalion, 4th Marines by the 29th Civil Affairs Platoon (USA) to begin construction of a proposed orphanage at Dai Loc. A Dai Loc Village Orphanage Council has been "elected" and is working, trying to secure land for the orphanage. Three gasoline water pumps were procured by the 3d AA Platoon (USA) to be given to the orphanage council to rent out to local farmers to irrigate their fields. All the profits

DECLASSIFIED

DECLASSIFIED

derived from this venture will be poured back into the orphanage's operating fund so as to make the orphanage self-sustaining. The District Chief backs these proposals 100%. As soon as actual construction is begun, a portion of the 3d AA Civil Affairs Platoon (USA) will be sent to Dai Loc to offer technical assistance on a permanent basis until the orphanage is complete.

ff. During the last week in November, Province approved three out of six "self-help" school projects for Dai Loc District. These schools were then built with the help and materials coming directly from the Province Capitol at Hoi An. On 14 December 1966, a member of the Province USAID team visited the MACV Sub-Sector Advisor and the three self help projects. At that time, verbal confirmation was made that 100 gallons of paint of mixed colors would be sent to Dai Loc, not only to paint all wooden parts of the three projects but also to paint the District Dispensary located at Dai Loc and also the only high school in Dai Loc District located in Loc Hung Village, Hoah My Hamlet. Repeated efforts to obtain this paint by the MACV Sub-Sector Advisor through GVN channels have been to no avail.

gg. A brick making machine has been installed in the refugee hamlet of Hoa Ninh. About 350 cement bricks to be used in Civil Affairs projects are being made per day. The people of Hoa Thanh Village are providing the truck, sand and gravel while the people of Hoa Ninh and the refugee camp are actually constructing the bricks. Workers from both villages are paid for their work in rice on a weekly basis.

hh. All 27 remaining American provided and bred pigs in the four refugee camps of Hoa Ninh, Hoa Thanh, and Nam My (A) and Nam My (B) are in excellent shape. The critical stages in growth have now been passed (7 visits in four months were made by vets of the 75th Medical Detachment, USA, from Da Nang), and the pigs are growing rapidly. After 4 months, most of them already weigh close to 100 lbs. The mortality rate of these pigs so far is below the Province level, but only through daily monitorization of this project, was this accomplished.

ii. A pilot pig project using the same kind of American bred pigs, was started at Hieu Duc District Headquarters. In the future, pig projects will be started in the three refugee camps in Hieu Duc District. Pigs are being raised at District Headquarters to show refugee hamlet farmers the best way in which to raise them.

jj. Garden plots at An My (3) are progressing by leaps and bounds. Almost every family has a small garden plot with several large plots springing up on the outskirts of the hamlet. Excellent results are being derived from the distribution of seeds. People were shown how to plant seeds so as to get the best results and most have done so. This has turned out to be an excellent Civil Affairs project for refugees.

kk. During the past month, the 3d AA Platoon (USA) has delivered 10,000 lbs of feed (unfit for human consumption) to be used as pig food in the four refugee camps of Hoa Ninh, Hoa Thanh, Nam My(A) and Nam My (B)

all in 2nd Bn, 26th Marines' CAAOR. All food is opened and placed in 55 gallon barrels near pig pens. Food is picked up on a once a week basis from Ration Company, Bulk Issue Point, Red Beach. Added to this, was 3700 lbs of corn (unfit for human consumption) delivered each week with other pig food.

3. Psychological Warfare

a. Operations during this period were characterized by daily leaflet drops and aerial broadcasts. A marked increase in the number of leaflets distributed by hand occurred. These leaflets and newspapers were distributed by patrols, at MEDCAPs and along the MSR between Dai Loc and Da Nang.

b. The Psy-War Officer of 1st Battalion, 26th Marines as a member of a Contact Team visited each Rifle Company and briefed the Officers and Staff Noncommissioned Officers on what Psy-War support is available.

c. A civilian bus hit a mine on Route #5 near the Hieu Duc District Headquarters. 13 civilians were killed and a number were wounded. A POET was dispatched to the scene. One hour of land broadcasts were made and leaflets and posters were printed to exploit the situation.

d. Two VC rallied to 9th Marine units during this reporting period.

e. The Kit Carson Scouts have been very valuable in that they speak often with the local villagers describing the evils of the Viet Cong. Their speeches appear to be most effective after some form of VC atrocity or after a child has been wounded by a Viet Cong mine.

f. 2nd Battalion, 4th Marines erected three bulletin boards that are being used to post propaganda material.

g. The following Psychological Warfare Activity occurred in the Regimental TAOR during March:

(1) 34,113 leaflets distributed by hand
(2) 5 hours of land broadcasting
(3) 7 speeches by local officials
(4) Daily aerial leaflet drops and broadcasts

COMMUNICATIONS-ELECTRONICS COMMAND CHRONOLOGY

1. No significant operations were conducted during the month of March. Normal communication activity was conducted within the 9th Marines TAOR.

2. Personnel

a. There exists at this headquarters, a critical shortage of teletype technicians and KW-7 repairmen. Our manning level calls for 1 (E-2) 2822 teletype technician and 2 (E-5) 2862 KW-7 repairmen. Our present strength in either MOS is at zero percent.

b. The lack of a 2822 and/or 2862 repairman creates a serious maintenance problem at this headquarters. Presently, our only support for the repair and maintenance of the AN/TGC-14A (V), AN/GGC-3, AN/TCC-14 and the KW-7 equipments is derived from the electronic maintenance company, 1st FSR and the 1st Marine Division Communication Company in DANANG. Any equipment failure, after 1600, within our communications center seriously reduces our teletype communications to higher headquarters and subordinate units. After 1600 daily, our only means to derive support from the DANANG area is by helicopter. When this means is not available, we must wait until the road from hill 55 to the DANANG area opens at 0800 the next morning.

3. Communication Center. 3,023 messages were processed through the 9th Marines communication center during the month of March.

4. Radio. Normal net operations were conducted during March. The 3rd Marine Division TAC NET#1 was guarded by this headquarters on four (4) separate occasions in support of Rough Rider convoys between DANANG and Phu Bai.

5. Wire. The wire platoon, Communications Company, 1st Marine Division, completed the "Black Jack" (30 foot) solid copper wire line to hill 55. A total of five trunk lines and a full duplex teletype circuit were opened to the 1st Marine Division headquarters.

7. Power

a. The 100 KW Fermont generator, which normally provides electricity to the units located on hill 55, was returned to 1st FSR on 23 March 1967 for repairs. The malfunction was attributed to a defective engine governor, repairs have not been completed to date due to lack of parts.

b. Electrical power to the units on hill 55 is being provided by a 30 KW generator on temporary loan from NSA, DANANG and a 20 KW generator provided by the 1st MAW to the HAAM unit occupying a sector of hill 55.

11. CONCLUSIONS. SINCE 2MAR67, THERE HAVE BEEN 13 DIFFERENT INTELL/EPTS ON ENEMY BN SIZED UNITS IN THE INDEPENDENCE AREA. 3 OF THESE EPTS MENTIONED THAT CHICOM ADVISORS WERE ACCOMPANYING THE UNITS. 7 EPTS STATED THAT EITHER THE BN'S WERE NVA OR THAT THE BNS HAD NVN SPEAKING PERSONNEL. DURING THE SAME PERIOD OF TIME THERE HAVE BEEN 29 INCIDENTS ON THE SONG VU GIA AND ITS BANKS BETWEEN (AT 805540) AND (AT 840548). THESE INCIDENTS RESULTED IN 28 VC KIA (CONF), 13 VC KIA (PROB) AND 13 BOATS SUNK OR DAMAGED. THE UNUSUALLY HIGH NUMBER OF ENCOUNTERS ON THE SAME SHORT STRETCH OF RIVER INDICATES THE ENEMY USING THE RIVER WERE NOT AWARE THAT IT IS CONTROLLED BY USMC. IT FURTHER INDICATES THAT THE ENEMY ARE NOT LF OR MF VC AND THAT THEY ARE NOT BEING ASSISTED BY LOCAL VN CIVILIANS. THE CONCLUSION FROM THE ABOVE FACTS IS THAT THE ENEMY CROSSING THE SONG VU GIA INTO THE INDEPENDENCE AREA ARE NVN AND PROBABLE MEMBERS OF AN NVA UNIT CURRENTLY IN THE INDEPENDENCE AREA. THE FACTS ALSO TEND TO INDICATE A LACK OF COMMUNICATION BETWEEN THE NVN AND VC LF AND MF UNITS AND VN CIVILIANS INHABITING THE AREAS ADJACENT TO THE SONG VU GIA.
