1. General

This After Action Report is submitted in accordance with reference (a) and covers the operations of Ninth Marines and the 2d Battalion, 9th Marines during the period 11-13 July 1965.

2. Background

a. As part of the preparation for movement of Ninth Marines from its positions north of the Song Cau Bo river into the southern portion of the proposed Division TACR, the 3d Recon Battalion was requested to conduct reconnaissance operations of the entire southern sector. Company D, 3d Recon Battalion was assigned the task and developed a five day reconnaissance plan for this task. (See Ref (b)).

b. In support of Company D, 3d Recon Battalion, Ninth Marines was requested to provide one PAC team, two Forward Observer teams and an LVT liaison officer. One company from 2d Battalion, 9th Marines was requested as a REFLEX company should the elements of the Recon patrol require assistance. Company C was assigned this task. (See Ref (c)).

c. Shortly after company D, 3d Recon Battalion left their patrol base on 11 July 1965, their 1st platoon came under heavy small arms fire from the village of Duong Son (1) CG AT9968 and were pinned down. The REFLEX force was committed. A sweep was conducted through Duong Son (1) that afternoon and the village was occupied during the next two days by the 2d Battalion, 9th

TAB-21

Marines. On 12 July 1965 two companies made a sweep from the railroad west to the Song Yen river generally clearing Phong Le (1) CG AT9969, Cam Ne and Yen Ne CG AT9767. This sweep was conducted against heavy resistance from well concealed positions. On 13 July 1965 positions were strengthened in Duong Son (1) and plans were made for the continuous occupation of the village.

3. Statistics

4. Chronicle of Action

a. 11 July 1965

111000H - Company D, 3d Recon Battalion began their reconnaissance of the area south of the Song Cau Bo river.

- 111105H - The 1st Platoon, Company D, Recon received sniper fire from the village Yen He (2) CC AT 990682 and shortly thereafter they were pinned down by heavy fire from the village of Duong Son (1).
- 111157H - The REFLEX force, Company G, was committed and began moving to the IP, which was the north end of the bridge at CC AT 998707.
- 111240H - The 1st Platoon, Company D, Recon had sighted seven Viet Cong suspects in the village of Cam He (1) and more in Duong Son (1). Their first casualty was wounded by small arms fire south of Duong Son (1). He died during evacuation.
- 111300H - Company G moved south from the bridge and deployed along highway 1A to make a sweep of Duong Son (1) from east to west.
- 111300H - Company G made its sweep of Duong Son (1) while
to Company D, Recon continued its reconnaissance of
111640H the area and reported suspected enemy activity in the villages throughout the area with movement of the enemy generally to the south and to the west.
- 111640H - Company G was engaged in a fire-fight with the enemy on their south flank of Duong Son (1). They found booby traps, entrenched firing positions and communicating trenches in the village. A plan was formulated by the Commanding Officer of Ninth Marines to have Company G occupy defensive positions around Duong Son (1) over night to be reinforced the next day by another company and to conduct a sweep of the villages to the west of the railroad track to the Song Yen river on 12 July 1965 using two companies.
- 111800H - The 2d and 3d Platoons of Company B, Recon Battalion returned to their patrol base at the south end of the bridge at CC AT 998707 and set up in defensive positions. The 1st Platoon, Company D, Recon and Company P (-) moved to Duong Son (1) to reinforce Company G for the night. Throughout the night and early morning all units south of the Song Cau Do were engaged in sporadic fire-fights.

b. 12 July 1965

(1) Movement to the Line of Departure

- 120600H - Company B, 1st Battalion was attached to 2d Battalion for sweep operations.

120730H - Company B, Company D (-), Recon Battalion and 2d Platoon, Company C, 3d Antitank Battalion and four M-274's "Mules" with supplies moved south on Highway 1A to the northeast edge of Duong Son (1). They joined with the 1st Platoon, Company D, Recon, and moved through Company F and Company G and deployed along the railroad track which was designated the LCD for the sweep operation. See reference (d) and enclosure (2) for a sketch of the action.

(2) Sweep and Clear Operation

(a) Company D, 3d Recon Battalion

120720H - As the Company approached the Line of Departure south of the village of Duong Son (1) they received moderate fire from the village of Duong Son (2) on their left flank and from the village of Yen He (2) on their right flank. One automatic rifle was firing from Duong Son (2) and three VC had been observed entering the woods near Yen He (2) and three was an undertermined number in the woods firing that could not be observed.

120830H - The 1st Platoon swung left into the village of Duong Son (1) to destroy the automatic weapon firing from that position. While moving through the village they were fired at from many of the buildings. Eight buildings were destroyed by grenades and rifle fire. There were many shelters and storage areas in the village. At the same time the 2d Platoon moved across the railroad tracks and moved into the village of Yen He (2) under cover of a base of fire laid down by the third Platoon.

121000H - The Company reoriented their positions, forming on line with the 2d Platoon holding their positions in Yen He (2) and the 1st Platoon moving to the right flank; the 3d Platoon, Company Headquarters and 60mm Mortar Section were in the center. In this formation they moved out at a rapid pace throughout the day with the 1st and 2d Platoons maneuvering while the third Platoon and mortars covered them by fire. The greatest resistance was not in the village of Cam He (6) which was very heavily fortified. Jungle stumps were found along the paths. Fence lines had trenches along them and were mined and booby trapped. A mined field was found at Co AT 974807 and a cement topped bunker covered by a thatched hut was found in the same area. The 1st Platoon approached the village of Cam He (6) on line. The A&W liaison

officer with then noticed the fence was mined and booby trapped. The company then proceeded to grenade the fence to clear the mines. After making gaps in the fence, they proceeded through only to find themselves in a minefield. The mines were anti-personnel and covered a large open area. The 1st platoon proceeded out of the mine field and came abreast of the 2d platoon. The company then came under intense fire from at least twelve different places. The enemy were in trees, dug-in positions and houses. Two casualties were suffered immediately and two corporals were wounded trying to assist them. Mortar fire was brought on some of the strongest enemy positions. A helicopter evacuation was made for the six MIA's under intense fire. The primary enemy positions were in a tree line bordering a village just across a small stream to the southwest. HU-1B's, Marine combat helicopters were on station and a strike was called for on the enemy in the tree line. After the airstrike the company assaulted across the stream and into the village. Only scattered fire was received at this time. The company took two more casualties at the fence of the village from booby trapped grenades. The casualties were moved back to an area where they could be evacuated. In the village grenades were used to clear the houses from which fire had been received and to destroy caves which may have been hiding the VC. Shortly after this a VC was captured trying to sneak into the company positions with grenades. He was wounded and was evacuated for interrogation and medical treatment. After securing this village, the company was ordered to return to the bridge at GC AT 998707 and began retracing its movement to the east to get to the railroad track. While moving back they again received fire from the villages they had passed through.

121945H - They arrived at the bridge and returned to their Battalion to prepare for further patrolling operations the following day.

(2) (b) 1st Battalion, 9th Marines

121015H - Company B deployed on line as shown in enclosure (2) and proceeded to sweep their area of responsibility. Immediately after crossing the railroad tracks the 1st platoon on the left flank received sporadic small arms fire from an estimated squad in the village of Cam Na (2). After passing through the first cluster of thirteen houses they began crossing a rice paddy when they were taken under fire from their left flank initially and then also from their right front flank. They were receiving heavy fire from automatic weapons from the left which killed one man and wounded one other. The platoon commander at this time requested that the HU-1B's that were on station make a strike and

he initiated a request for medical evacuation of his casualties. While setting up a perimeter security for the landing zone he sustained another two KIA and four WIA all of which were in the 2d squad which had responsibility for securing the northwest sector of the landing zone. The squad was passing through an opening in a natural bamboo fence when a mine activated by a trip wire exploded and heavy small arms fire was brought to bear on the wounded and the rest of the squad from at least two different positions. The mine killed two men and wounded three others and one more man was wounded by the fire.

121430H - The medical evacuation was carried out without further casualties. The airstrike which had been requested of the HU-1B's was refused because of priority of a mission for company D, 3d Recon Battalion. Two F4H Phantom aircraft were on station in addition to two OIC observer aircraft. An airstrike was called in by the Tactical Air Control Party with company D. The target was marked with red smoke and the Naval Air Observer directed the Phantoms to the target. Both aircraft made a dummy run and then two more delivery runs. Twenty-eight 250 lb rockets were put on target. The results were that the dummy runs caused the VC to run from their positions with the delivery runs catching them in the open. The Naval Air Observer saw six VC killed by the rockets and the men on the ground observed secondary explosions probably from mines. Bits and pieces of human bodies were all that could be identified of the six VC that were hit by the airstrike. The 2d platoon and the company Headquarters which were in the center began receiving fire as soon as they entered the village of Cam Xe (a) although the intensity never equalled that on the left flank. During the airstrike they were kept pinned down by fire coming from the 1st platoon area on the left flank. One of the ARVN advisors with the CP group was wounded at this time and a medical evacuation was called for. There was an hours delay while a landing zone was secured and the evacuation made. The 3d platoon was advancing against light resistance from snipers and had moved ahead of the other two platoons. After the airstrike the resistance fell off and there was a mass evacuation of civilians leaving the village in all directions. It is believed the major part of the enemy force withdrew to the west and then to the south. Company B then advanced to the rendezvous point to join up with the LVTP-5's from company B, 1st Antec Battalion.

121815H - The initial elements of company B arrived at the rendezvous point and began moving by LVTP-5's back down the Song Yen and the Song Cau Do to the assembly area at the bridge GO AT 998707.

(2) (c) Company B (-), 1st Amphibian Tractor Bn

120730H - Seven LVTP-5's and one LVTC-1 moved to GO AT 998707 to support the operation in the village of Cam Ho (2) and Cam Ho (1).

120900H - The seven LVTP-5's splashed in the Song Cau Do and spread between GO AT 989699 to GO AT 962688 as a river blocking force.

121200H - On order the LVTP-5's were moved to GO AT 968694 to intercept twenty VC who were believed to be moving in that direction.

121330H - The LVTP-5's received small arms fire from Cam Ho (3) located in the vicinity of GO AT 967686.

121500H - The Commanding Officer of company B, Amtracks was notified that the LVTP-5's would bring company B, 1st Battalion back down the river after the sweep. A rendezvous point was established at GO AT 989692. The tide was going out with only three or four feet of water in the river. The river bottom is soft sand making it very difficult for the LVTP-5's to move at low tide.

121815H - The tractors began moving company B, 1st Battalion down the river to the assembly area at the bridge. The move was hindered by tractors which became stuck in the soft river sand.

121915H - Some of the tractors made it to the assembly area with 47 men. The rest of the company set up a perimeter defense on the island in the river at GO AT 977699 to protect the LVTP-5's still stuck. With great difficulty all of the tractors and men were returned to the assembly area by 130500H and the LVTP-5's returned to their CP for maintenance.

(3) 13 July 1968

130715H - Three Vietnamese interpreters joined Ninth Marines. Two were sent to the 2d Battalion to help search Duong Son (1) GO AT 9968.

130735H - A Force Platoon, 594 Company from the Danang Special Sector with army advisors and an intelligence officer from the Hoa Vang District Headquarters arrived at Duong Son (1) to search the village.

131100H - Company C remained in position while company F provided security for the Vietnamese forces searching the village.

131400H - The search of the village was completed. Many documents and important papers were found during the search. Maps and sketches of buildings and tunnels were found.

131520H - A Vietnamese man and child were wounded by a booby trap placed in the village. The child had carried a box into the house and opened it with an ensuing explosion. The child later died.

131800H - Companies F and G, 2d Battalion, Ninth Marines supported by the Popular Force Platoon remained in defensive positions in Duong Son (1). Small arms fire was received throughout the night.

5. Lessons Learned

a. While operating in a village area the 2d squad, 1st platoon, company B, Ninth Marines lost 2 KIA's and 3 WIA's at one instance when a booby trapped mine exploded. This mine was placed at an opening in a natural bamboo fence, a likely place for troops to move. Emphasis should be placed at all times by unit leaders on proper dispersion at the fire team and squad levels. When moving through danger areas such as villages, all fence lines and gates and other likely booby trap locations should be checked by a team of one or two men before the main body of troops move through.

b. Great difficulty was experienced in the movement of amphibian tractors in the Song Yen and Song Can Ho when the tide was low. The river bottom is soft sand and trafficable

only with difficulty at low tide. Sandbars which are not plotted on the 1:50,000 maps were also a hindrance to amphibian tractor movement. Accurate river tidal data and river trafficability data must be available during the planning phase of any operation where the use of amphibian tractors is a possibility. This is especially true when tractors are to be used to transport forces and timely movement is an essential part of the plan.

3. General Summary of Events. 120001H July Companies "F" and "G" BLT 2/9 occupied a perimeter defense DONG SON I coordinates 998687. Company "B" 1st Bn, 9th Marines, moving via highway 1A, crossed initial point (Railway Bridge - coordinates AT998707) and proceeded SOUTH and SOUTHEAST to the LOD (coordinates 993683 to 996691) for planned sweep operation (Sitrep #3). LOD was crossed at 0900 hours and company began its sweep in westerly direction. B company on arrival DONG SON I moved through and around companies "G" and "F" and continued their attack due west through KAM NI villages 1 and 2 (coordinates AT991689). Company "D" 3d Recon Bn with two platoons left patrol base (located north of railway bridge coordinates 998707) 0600 hours and moved coordinates AT999700 to vicinity coordinates YIEN NE #3 (coordinates AT990680). At 0830 hours the third recon platoon which had remained in the overnight defensive position with companies "G" and "F" rejoined their company. Moving westward the company began to move around the left flank of "B" company 1/9 clearing the area from YIEN NE #2 to KAM NE #3 coordinates AT962682. Recon company remained at vicinity KAM NE #3 from 1230 hours until 1630 hours. Unit returned to patrol bases (railway bridge coordinates AT998707) following a reverse route through the area which they had previously swept. 3. General Summary of Events. 2d Bn, 9th Marines continued to defend the village of Duong Son (1) (AT9968). During the night activity was characterized by sniper fire which ceased later in the evening. Company "F" received two rounds of sniper fire at 181900H. Company "G" received 15 rounds of small arms fire at 181830H from coordinates AT992690. The fire was returned and one 3.5" rocket round was fired with undetermined effect. The VC ceased firing. At 181845H they again received fire from coordinates AT994679. They returned fire and fired two 3.5" rocket rounds with undetermined effect. The incoming once again ceased. The VC beat on pans off and on from 181830H to 182030H around the perimeter. At 182100H a man from company "F" fired a 45 caliber pistol at a man on a roof close to the company CP. There was no evidence of having hit him. Company "F". 1st Antrac Bn, sent two LVTP-5s during the night to the bridge at coordinates AT998707 and they established a river check point beginning at 190900H. No boats were encountered. At 191000H a propaganda raft was found in the river. They material was turned over to the BLT-9 S-2. All units continued to prepare defensive positions and company "H" (-) relieved company "F" in position at Duong Son (1). The 81mm mortars fired four rounds illumination during the night at coordinates AT968698 at 182145H. There was good effect, but no enemy activity sighted.

4. Activitiesa. Operations

- (1) BLT-9 Headquarters - None.
- (2) 2d Battalion, 9th Marines. None.
- (3) Company "B" (-) 1st Antrac Bn. Commenced manning river check point at 190900H by the bridge at coordinates AT998707. Coordinated with 1st Battalion, 9th Marines, for support of their operation tomorrow.

- (5) 2d Platoon Company B 2d Tank Bn. None.

b. Patrols

(1) Company "C" had a squad patrol in their local area from 182100H to 190015H. The patrol departed from and returned to coordinates AT002690. No contact was made.

c. Ambushes. None.5. Changes to Location of Headquarters

a. Company "K" (-) CP coordinates AT98971

b. Company "H" (-) CP coordinates AT002687

6. Establishment of CPs. A squad CP with TPA-21 operation at coordinates AT993684. LF from company "F" at coordinates AT004692.

7. Training. None.8. Plans

(a) Company "B", 1st Amphib Bn has a foot patrol and river patrol planned for 21 July 1965. Both plans are attached to this report.

(b) LT-9 expects to extend the airfield defense, adding a secure zone south of the LONG CAU DO by occupying and consolidating the HOA CHAU district and the HOA DA district. At present this concept is delayed, while two companies at present occupy the village of DUONG LONG (1), further expansion in HOA CHAU district is delayed pending agreement between III MAF and I Corps (ARVN) as to the area in which RL-9 is allowed to operate and the time in which it can extend its influence. It is apparent that a reluctance to initiate positive action against the VC, by the 9th Marines exists due to the inability of the RVN to follow up any combat action. Further that Marine operations in the area south of the LONG CAU DO will be tied to the pacification program and the ability of the VN government to provide civic action teams to follow up seizure of areas by Marine forces. It is recommended that higher headquarters accomplish the necessary liaison to secure a time schedule for operation of RL-9.

9. Miscellaneous. CO RL-9 presented Purple Hearts to five Marines in the 2d Bn CB today.

3. General Summary of Events. Company "E" (-) and company "F" supported by one section of M-50 "Entos" and two sections of 106mm recoilless rifles continued to defend the village of Duong Son (1). Company "E" (-) received six rounds of small arms fire between the hours 201740H and 201910H from a house in TAN RB (2) CG AT992683. This house was fired on and hit by a 3.5" RR WP round. Four VC ran from the house, one of whom was shot down by rifle fire. This area was kept under observation with a telescope until darkness set in. At 202021H company "E" (-) fired on four VC in the same area. These men were spotted under illumination and were probably trying to evacuate the wounded. No VC casualties were seen and there were no friendly casualties. At approximately 201930H, three VC were spotted moving into position across the railroad tracks from company "E" (-) position. When the VC fired, fire was returned with small arms and one 3.5" RR round. One of the VC was hit with the 3.5" RR round, another was hit with an M-79 40mm grenade. A VC flag was planted at CG AT982720 near 3d Tank Battalion positions. When investigated at 211130, it was found to be booby trapped with a grenade. The grenade was detonated in place. Its make and origin could not be determined. The remains were turned over to RLT-9, S-2.

a. Operations. None.

b. Patrols

(1) A foot reconnaissance patrol from company "E", 1st Amphib Bn received one round of small arms fire from the village of CAN ROA (1) at 211022H. They did not return fire because the location of the sniper could not be determined. The patrol returned at 211030H without further incident.

(2) The river reconnaissance patrol from company "E", 1st Amphib Bn departed at 210850H. Entries to the river for LVIs were found in the following places on the Song Yen river: the west bank at CG AT963689, on the east bank at CG AT976697

CC AT966692, AT964690 and AT967693. A river entry could be made at CC AT9 6702 if a culvert could be constructed so as not to disrupt a mud drainage ditch. A bunker was found on the west bank of the Song Yen river at CC AT967693. The firing port was five feet above the water. No enemy contact was made and the patrol returned at 211024H.

5. Changes to location of Headquarters. None.
6. Changes in location or establishment of New Cps. None.

5. Changes to Locations of Headquarters

a. Company "H" 2d Battalion - GC BT009693

6. Establishment of OPs. None.

7. Training

a. Headquarters Battery, 12th Marines conducted FAF firing at MCA OAM Training Center for 85 min. The following weapons were fired; 50 cal. MG, 30 cal. MG, 45cal. pistols and M-14 rifles.

8. Plans. The 2d Battalion will search the village of Quang Chau (2) GS BT0068 tomorrow as part of Phase 1 of Operation 321A-65. The perimeter will then be extended south of this village.

9. Miscellaneous. None.

10. Civil Affairs

a. RedCap Stations

(1) 2d Battalion BAS - 19 Patients

(2) Phong Lo (1) - 37 Patients

b. RedCap supplies are now depleted. Resupply is expected tomorrow.

c. The 2d Battalion purchased a headstone for Le Duc Chua for \$40.00. This stone will be presented to his family tomorrow. Major J. A. BUCH visited NGUYEN QUANG BAI, the wounded soldier.

d. A dinner conference was held on the evening of 24 July 1965 at the 9th Marines CP between the principle representatives of HOI VANG DISTRICT and the 9th Marines. Representing the 9th Marines was its Commanding Officer, CO 2dLt 9th Marines and selected staff officers. Representing the HOI VANG DISTRICT was DAI VY HOA, district chief; SMC HUI, chief of the HOI CHAU CAMP and Nguyen Van Lon police chief of HOI VANG DISTRICT. As a result of this conference the following information was obtained:

(1) A 100 meters by 100 meters rice field should be compensated for with 600 piasters. An LVT track through this field is worth about 100 piasters during the August harvest.

(2) River traffic has been suspended on the SONG CAU DO, the SONG VUNG BIEU and the SONG C H BIEU with the exception of five small junks allowed to haul construction material on the SONG CAU DO. DAI VY HOA states permission has been given to fire on all boats traveling these rivers.

(3) All villagers have been notified that curfew of 2200 is established and are not to be outside their homes after this time. Stated shoot anyone out after this time.

(a) MAI UY HAI has recommended to the VC Danang Special Sector that one regional force company be assigned to each Marine Battalion in this district.

(4) Railroad ties south of Danang have been removed and taken to AN TRACH GS AT9666 where they have been used to reinforce tunnels and caves which are impervious to artillery fire.

(5) Popular forces are paid 1300 piasters per month and do not receive a clothing allowance. This accounts for the varried uniform - or lack of uniform that popular forces wear.

(6) There are ten regional force companies spread throughout the Danang Special Sector and 750 individuals in the Popular Forces. Of the 750 Popular Forces approximately 500 are effective.

(7) The rice fields south of the line now held by the Regional Forces, roughly the HOA CHAU and HOA BA districts are subject to VC taxes on the rice crops. These are a minimum of $\frac{1}{2}$ of the harvest and often up to $\frac{3}{4}$ of the crop. As a result the villagers must be supported through the district chief's office. While some rice is available for this the supply is severely limited.

11. In light of the information learned in conference with the representatives of the HOA VAEC District the following Lessons Learned need to be reviewed.

a. Principle casualties to date have been incurred in crossing mined and bobby trapped hedges and rows, outskirts of

villages, and with small arms fire in approaching villages across open fields. LVT's have no difficulty in traversing rice paddies. Through use of LVT's, infantry troops can be quickly and safely invested into villages in this manner. On the other hand, the field owner should be compensated for the damage done by marines.

b RECOMMENDATION That division secure funds, and establish civil affairs personnel and procedures with the infantry unit in assault situation for the immediate payment of small claims remitting from combat damage to non-combatants.

3. General Summary of Events. The Fifth Marines continued consolidation of Phase I of Operation 381A-65. The 1st Battalion continued extensive day and night patrolling of the area around the Landing Air Base. At 262250H one round of illumination was fired at concentration Fo 202 after the listening post at Post #4 had observed two persons near them. Nothing was seen under the illumination. At 270210H Post #10 reported receiving eleven rounds of small arms fire and one grenade. Post #10 fired twenty-two rounds of small arms fire and two 40mm grenades. There were no friendly casualties and no known enemy casualties. The 2d Battalion continued to hold the same positions south of the Long Tan Co. At approximately 270630H, company "F" saw a large flag located on the railroad tracks at 60 AF 992483. A signal was sent to check it out. As part of the signal approached the flag an explosion occurred near it. Electric wires were found in the area. There were no casualties. It appeared that the fire came from V.A. Co (2). At 271010H company "E" received sniper fire from houses located at 60 AF 993679 and 60 AF 991695. The M-50 Cats fired three rounds at these targets. The buildings were destroyed and a bunker was damaged at 60 AF 992483. There were no friendly casualties.

SITREP No. 20

1. Reporting Unit. 9th Marines
2. Period Covered. 280001H to 282400H July 1965
3. General Summary of Events. The Ninth Marines continued consolidation of Phase 1 of Operation 321-65. The 1st Battalion carried out extensive day and night patrols around the Da Nang Air Base. The 10th VAH District Headquarters 1-2 informed the 1st Battalion that the Redwood 10th 1st patrol operating south of the airfield yesterday at 271020H was followed by two children who were handing out VC pamphlets. There was no enemy contact today in the 2d Battalion area south of the 21st CAS OC. Last night at approximately 272230H the 2d platoon, 789 company, 52 Regional Force Battalion at OC B1 016716 exchanged small arms fire with the Popular Force at the north side of 0101 4E-100 bridge. About thirty rounds were fired. This incident started when the Regional Force platoon fired three rounds to the northeast at a VC. The Popular Force to the north of the bridge thought they were under attack and fired about forty rounds. The Regional Force then fired fifty rounds. A Vietnamese civilian was wounded in the left thigh at CAS 1001 village by this fire. The 2d Battalion dispatched medical assistance at 280059H and the wounded man was taken to the Vietnamese hospital. At 272030 the 2d Battalion demonstrated the portable flame thrower on the railroad tracks

at 00 AF 992638. Preceding the demonstration a siren was sounded for five minutes. Company "G" reverted to operational control of the 4th Marines today and was helilifted to Chu Lai this morning.

4. Activities

a. Operations

(1) 1st Battalion. None.

(2) 2d Battalion

(a) At 230505H company "G" moved by truck to the Namang Air Base where they arrived at 230530H. They were then heli-lifted to Chu Lai where they reported to Commanding Officer 4th Marines. This company will be employed on the Main Line of Resistance at Chu Lai and will occupy positions vacated by the 4th Marines during their combined operations. They are not expected to return to SAIGON and CMC 9th Marines for 36 hours.

(b) During the early morning hours, the third platoon of Hotel company and the second platoon of Echo company rotated on the main line of resistance, thereby realigning the platoon of each company and insuring company integrity.

(c) 2d Bn, 9th Marines assumed responsibility of defense of the Thanh Le Railroad Bridge at 998707, replacing the popular force platoon of RCA VUNG district. One squad was employed on the south bank of the bridge, while two squads are retained on the northern bank. This platoon, in addition, provides security for the Division Water Point on the LONG CAU DC.

GITREP No. 22

1. Reporting Unit. Ninth Marines
2. Period Covered. 300001H July to 302400H July 1965
3. General Summary. There has been a relative lull in activity throughout the 9th Marines area of responsibility with only a few Viet Cong initiated incidents. The 1st Battalion has kept up extensive day and night patrols around the perimeter of the Da Nang Airbase without enemy contact. At 292245H, Company "C" reported five men approached a listening post located at CG B2 016744. One of the men wore a white band around his head and was carrying a rifle. When challenged, the persons did not respond. The LP fired 14 rounds of small arms at them and withdrew to the perimeter positions. Sixty Mortar illumination was fired in the area with negative results. At 2335, a s-a.s.d. was sent outside the perimeter to investigate. The squad returned at approximately 2400, having found what appeared to be a fresh, bloody handprint on the wall of one of the abandoned buildings in the vicinity. At 300350H a company "U" sentry at the southern tip of the airfield reported a man running west approximately 75 meters south of the position. At the same time, there was a lot of barking and noises from the village directly south of Post No. 6 vicinity of CG 012753. Four rounds of Sixty Mortar illumination was fired but nothing was seen.

At 060145H a sentry located at GC 003732 reported seeing three men around a candle in the village to his right front (approximately 150 meters). A few minutes later, two of the men departed and returned carrying what the sentry thought were rifles. The men were kept under surveillance. At 0630 two of the men departed and entered a house a short distance away, still carrying what were thought to be rifles. A squad of company "D" with ARVN liaison was dispatched at 0620 and searched the area vicinity of GC 003736 with negative results. There were several men in the village and all had proper identification. Nothing suspicious was found, although shots have been fired from this vicinity into the perimeter on three previous occasions. South of the Cong Cau Bo in the 2d Battalion area of responsibility, company "B" reported that at 242045H they received sniper fire from Can Bo (2) and again from Can Bo (1) at 293045H. At 292055H the liaison with the Regional Force platoon on company "D"'s left flank reported that they had received either one 60mm mortar round or one grenade 30 meters to the front of their positions. There were no casualties. Company "D" shot and hit one VC at 292249H with the night firing device between their lines and Can Bo (1) GC AT 994695. Company "D" sighted two men at a bunker which was destroyed on 28 July 1965 at GC AT 992688. At 291800H a 3.5" rocket round was fired to flush the two men and one was shot with a tracer round. He was carrying a rifle. The body was not recovered. By 301300H Company "D" had completed move from Thong Son (1) GC AT 9868 to their present positions. The 1st platoon is located at the bridge GC AT 990707, the 3d

platoon is located at the same dump as AF 98773. The 2d Battalion conducted a reconnaissance of the Long Binh area this afternoon in preparation for tomorrow's operation. Company "F" has been assembled at 00 98773 in preparation for tomorrow operation.

b. At 1000, 30 July, the village elders of Duong Son (1),

Phong Lo (1), (2), Cam Nam and Duong Chau (2) met together with

the villagers of Duong Son (1) at the schoolhouse at Duong Son village. Guests attending included the District Chief Captain BOA, the Canton Chief, Ngo MIN and the Canton Police Chief, Mr. HOA. Invitations were sent by the villagers and places of honor were reserved for the CO, 9th Marines, Colonel CARPENTON, CO 2d Bn, 9th Marines, LtCol SCHARNBERG and the former XO 2/9 (now XO 2, 9th Mar) Major BUCK. The general tenor of the many speeches made was that of a welcome to the U.S. Marine forces in the area south of the Song Cau Do, a reaffirmation of U.S. Vietnamese solidarity and an affirmation of the peoples will to support the RVN in the fight against the VC. Le Bao Ich who had served with the VC as a corporals and recently surrendered in Phong Le (1) was presented to the assemblage. He spoke on his experience as a Viet Cong and warned the villagers against affiliating with the VC. Then called upon to speak, Colonel CARPENTON restated his appreciation for the cooperation and forbearance of the farmers during our operations in their village areas and added that many additional U.S. forces were enroute to bolster our assistance to the RVN in order to attain complete victory over the VC. The village chiefs responded by presenting the CO 9th Marines and his fellow officers present with an elders black turban hat, an umbrella and a black silk smock as a gesture of respect and friendship. Afterwards, the officers and the Canton Chief conducted Colonel CARPENTON and his party on a tour of the village pagoda and other village points of interest. French and Vietnamese interpreters were available and utilized. Media coverage was

provided by INS, CBS and Saigon Times photographers/reporters.

SITREP No. 23

1. Reporting Unit. Ninth Marines
2. Period Covered. 310601H to 312400H July 1965
3. General Summary. There was very little enemy activity within the Ninth Marines area of responsibility during this reporting period. No incidents were reported around the Danang Air Base perimeter where the 1st Battalion keeps up its aggressive day and night patrols. The 2d Battalion reported one isolated enemy incident. Company "F" received sniper fire from the village of Cam Ho (1) GS AT 9869 at 302207H. There were no friendly casualties. Battery B fired three rounds of illumination and Naval Gunfire fired four rounds of illumination. The sniper was not seen, but one round of 3.5" WP rocket was fired at the suspected position. The sniper fire ceased. The Ninth Marines swung into Phase 2 of Operation 321A-65 at the crack of dawn this morning as Company "F", 2d Battalion in a combined operation with the 591 Regional Force Company cleared the area of HOA DA village north of the Song Vien Dien. No Viet Cong were encountered during the operation and all objectives were occupied by 311400H. There were three heat casualties caused by the blistering heat; but only two required evacuation and these were returned to duty after being treated. The Ninth Marines now control approximately nine square kilometers south of the Song Cau Do including thirteen hamlets in two villages

and four kilometers of highway.

4. Activities

a. Operations

(1) Ninth Marines. Began Phase 1 of Operation 321A-65. Prag Order 6-55 was issued.

(2) 1st Battalion. None.

(3) 2d Battalion. Began Phase II, Sector B, Operation 321A-65. 2d Battalion PRAG ORDER 12-65 was issued.

(a) Company "F". Company "F" departed the Battalion CP at 300530H and moved by truck down highway 1A to the assembly areas at GO BT 016698 and BT 017684 arriving there at Dawn. The 1st platoon met one platoon of the 591 RF Company at BT 016698 and Company "F" (-) met the 591 RF Company (-) and US Army advisors from the Danang Special Sector at BT 017684. The 1st platoon moved northeast to Objective 3 at GO BT 044724 searching the hamlets of Lo Giang, Se Ap and Con Gui Noi as they move. They were in position on the objective at 311300H. The rest of the company moved east and then northeast to Objective 1 at GO BT 028693 and then to Objective 2 at GO BT 037704. Objective 1 was reached at 310845H and Objective 2 at 311215H. The hamlets of Mien Lac (1), Go Man, Mien Lac (2) and Tung Lan (1) were searched during the sweep. The 1st platoon now occupies Objective 3, the company Headquarters and 60mm Mortars and the 2d platoon are at Objective 2 and the 3d platoon occupies Objective 1. There were no Viet Cong encountered during the sweep. The villagers were friendly and receptive. The area has not been fortified. Some villagers are beginning to build self-defense

tunnels for protection from artillery. The only indication of Viet Cong activity in the area was a VC flag found near the south west edge of the village of Men Lac (1) vicinity GC BT 021686. The flag was not booby trapped in anyway.

From: Commanding Officer
 To: Commanding General, 3d Marine Division (Rein) (Attn Civil Affairs Officer)
 Subj: Periodic Civil Affairs/Civil Action Report Number 1
 Ref: (a) Divo 5800.2

1. In accordance with reference (a) the subject report is herewith submitted.

a. Clearing Operations. No clearing operations were conducted by Headquarters, 9th Marines. The 1st Bn, 9th Marines conducted clearing operations in the hamlet of Duog Song, District of Hoa Vang. Their operations report is contained in the unit's Civil Affairs Report. Essentially, their operation was contained to medical assistance to injured individual and MedCap aid to others. No repairs or construction projects were undertaken. No assessment concerning the people's reaction can be determined at this time. Future clearing operations will be programed in the TR08 District of Hoa Vang as operational commitments will allow clearing operations utilized RVN and CI personnel. No report of the effect of their contact has been received at this time. Troops are performing well. Morale is high and no adverse incidents have been reported. RVN Popular Forces units conducted psycho warfare techniques and all available information was disseminated through the appropriate S-2 channels. The clearing operations was cleared through the Ba Nang Special Sector and the District Chief of Hoa Vang.

b. MEDCAP Activities. There are three units now actively participating in civilian Medical aid. These are the 3d Tr Bn, the 3d AmTrac Bn and the 2d Bn, 9th Marines. The area of treatment is adjacent to the respective CI areas. The overall program is supervised by the 9th Marines Regimental Surgeon, Doctor J. H. He has made arrangements for procuring MEDCAP supplies. There are approximately 100 persons treated daily. The age group ranges from babies to the very old. Results have been reported as outstanding. Additionally, unused remains of "G" rations have been distributed. When requested the District Chief provided a representative to establish contacts locate village or hamlet chiefs and publicized the operations. In general, the reception of the people to our assistance has been rewarding and has contributed significantly to the overall operations in the area.

c. Coordination. All civil affairs activities in this area

TAB-24

be coordinated by the 9th Airborne, the District Chief of Hoa Vang and the Division Civil Affairs Officer.

d. Displacement of families and homes. At this time one family has moved from the C area of the 3d Team. Future operations of this nature are not being projected in the vicinity of the 9th Airborne CP. There are 6 homes which must necessarily be moved adjacent to the CP.

e. Future projects. One additional MAC Station will be established at coordinates 002716 by the 9th Airborne. No other operations are contemplated at this time.

f. Civil Affairs Cont cont

(1) Capt ROSS USA, Sub Sector Advisory to the District Chief of Hoa Vang.

(2) Captain ROSS, District Chief of Hoa Vang.

(3) Major KLEVER USMC, Division Civil Affairs Officer.

(4) Lt JENSEN, USN, Division Civil Affairs Officer.

(5) Lt JENSEN, SN, USN Regimental Surgeon.
